The School of Natural Sciences organized an Open House on Career Pathways on Saturday November 9, 2013 at the Shiv Nadar University campus in Greater Noida. More than 100 school students from Delhi-NCR participated in the event that highlighted research activities in natural sciences, educational training and career track avenues for young minds. This event was an attempt to bring students closer to real university life by connecting them with the resident undergraduate and PhD students and guiding them towards right career decisions.

The event was thrown open with the lighting of the lamp by all the members of the Natural Sciences department. Dr. Rupamanjari Ghosh, Director, School of Natural Sciences, welcomed all the participants and threw light on the multi-disciplinary, inter-disciplinary and research focus of the Shiv Nadar University. Panel discussion on the various career opportunities began with Dr. Subhabharta Sen, Associate Professor, Chemistry enlightening the audience about the options and opportunities available for students in Chemistry. Dr. Samarendra Pratap Singh, Assistant Professor, Physics shared on the journey of a physicist in the quest of nature’s truth through learning and applying fundamental physical laws. Dr Amber Habib, Professor and Head, Mathematics department said that Mathematics is a gateway that can open up opportunities in diverse fields. Dr. Pawan Dhar, Professor, Life Sciences also informed the students about the attractive Career options for a Life Sciences student. The session also saw interesting questions from students and wise responses from the experts from various fields. The event proved to be a good exposure for the teachers and students. Aman Singh from Daffodil Public
School, Delhi expressed, “The seminar organized by SNU was of great value to us as school students rarely get an opportunity to experience the university culture hands-on.”
