

Shiv Nadar Institution of Eminence

Free drinking water

Shiv Nadar Institution of Eminence ensures the provision of free, clean, safe, and accessible drinking water at its campus for good health and physical well-being of the university community.

It provides drinking water at all the academic, research, library sports and recreation centers, dining halls and residential blocks through mains supply and filtered systems. Clean drinking water is made available 24/7 on the campus through easily accessible multiple dispensing stations at common points of each floor in all the buildings. Adequate hygiene and sanitation conditions are maintained across the campus. The campus has three water treatment plants with a capacity of 40 m³ per hour to serve the needs of the campus population.

Water dispensing units are fitted with filters and display signage
