

Shiv Nadar Institution of Eminence

Sustainably farmed food on campus

At Shiv Nadar Institution of Eminence (Shiv Nadar IoE), we prioritize procuring products from local sustainable sources, providing opportunities to local vendors to open food kiosks and vegetable shops within the campus. This helps support the local community with significant economic opportunities and provides fresh and sustainable food choices from local sustainable farms to university residents.

We have partnered with Jaivik ('jaivik' means 'organic' in Hindi), local organic farm situated within 15 miles of the university campus. The produce from the farm is procured weekly and used in preparing meals that are served on campus.
