## Arizona State University, U.S.

### A New American University

Two decades ago, Arizona State University set forth a new and ambitious trajectory to become a comprehensive knowledge enterprise dedicated to the simultaneous pursuit of excellence, broad access to quality education and meaningful societal impact. From that point forward, all of its energy, creativity and resources have been brought to bear on the design of a uniquely adaptive and transdisciplinary university committed to producing master learners. Today, ASU exemplifies a new prototype for the American public research university.

At ASU, our culture of innovation and inclusion draws pioneering researchers to our faculty and attracts highly qualified students from all 50 states and more than 155 nations. ASU is expanding academic and entrepreneurial opportunities for every type of learner at all stages of life.

### ASU Charter

ASU is a comprehensive public research university, measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves.
