About the University

Shiv Nadar Institution of Eminence (SNIOE), established in 2011 by the Shiv Nadar Foundation, is a leading university in Delhi-NCR known for excellence in education and research.

It offers interdisciplinary programs to **4000+ students** in engineering, natural sciences, humanities, and management at the undergraduate, postgraduate, and doctoral levels, supported by state-of-the-art facilities, **200+ distinguished faculty**, and a vibrant academic community.

About **SUMMIT 2026**

11th April, 2026 | SNIOE

SUMMIT (SNIOE Undergraduate Meeting on Multidisciplinary Inquiry and Thought) is a student-led academic conference that provides a national platform for undergraduate researchers to present their work, collaborate, and engage with global challenges through keynotes, panels, and interactive sessions.

The third edition, under the theme **B.R.I.D.G.E. - Building Research through Interdisciplinary Dialogue and Global Engagement**, invites extended abstract submissions across 6 open-ended tracks, encouraging research shaped by diverse disciplines, cultures, and perspectives.

PAST EDITIONS

The inaugural edition in 2024 was a resounding success, featuring 8 tracks that encompassed a wide array of disciplines and 80+ paper submissions!

The second iteration, SUMMIT 2.0, received **120+ submissions**, with **42 papers shortlisted** for presentation and **8 honoured with awards**. Held on 12th April 2025, the conference brought together distinguished panellists from leading NCR Universities to chair 6 tracks. The event welcomed **150+ attendees** and featured **Padma Shri awardees as Plenary Speakers**.

TRACKS

Trade, Enterprise, and Economies

This track explores how technology, markets, economic behaviour, and human habits are evolving. It examines how innovation reshapes economic practices, financial systems, entrepreneurship, and global trade, highlighting both new opportunities and emerging constraints. We welcome submissions from various streams that analyse these shifting economic landscapes.

Sustainable Transitions: The Urgency of Today

This track explores sustainability across disciplines, from environmental research to industry, policy, and everyday life. It focuses on sustainable design, biodiversity, renewable systems, circular economies, and climate resilience. We invite original interdisciplinary work that examines how different fields address sustainability today and navigate the challenges of building a sustainable future.

Medicine & Life - From Genes to Communities

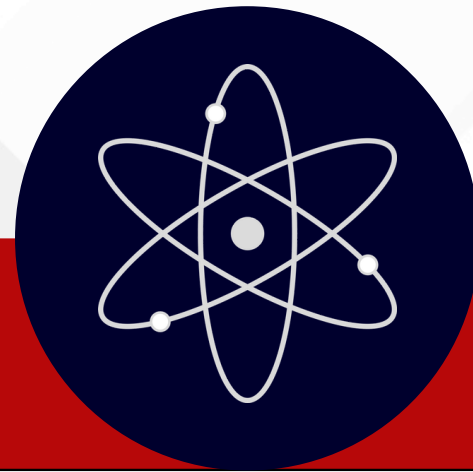

This track explores health across societal, clinical, and biological dimensions. It brings together research in medicine, biotechnology, neurology, pharmaceuticals, and public health to better understand disease, diagnosis, treatment, healthcare systems, and community outcomes. Emphasizing the role of social networks and systems, it highlights pathways to building healthier futures worldwide.

TRACKS

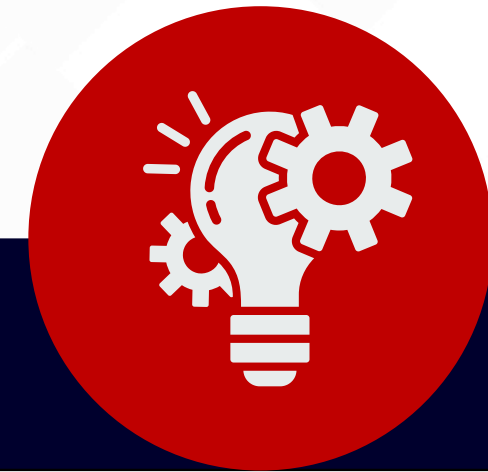

Ethics, Regulation and the Digital World

This track examines the ethical, legal, and philosophical dimensions of an increasingly connected world. It explores themes such as international law, public policy, human rights, war and peace, digital governance, AI ethics, cybersecurity, and the cultural impact of technology. Focusing on information systems and technological change, it asks how institutions, norms, and values evolve to safeguard society in a rapidly advancing digital age.

Innovation, Precision and Revolutions in Matter

This track celebrates fundamental scientific research that reshapes our understanding of the universe. It brings together physics, chemistry, mathematics, and materials science, spanning topics from quantum systems and novel materials to chemical processes and mathematical theory. The track values precision, curiosity, and innovations that push the boundaries of modern science.

Shaping the Future: Engineering, Infrastructure and Societal Development

This track highlights engineering as a driver of development, shaping cities, communication, and industry. It focuses on the design, optimization, and management of modern systems, while emphasizing technical innovation and industrial transformation. The track connects engineering advancements with business, industry, and evolving societal needs.

WHY JOIN SUMMIT 2026?

PRIZE POOL OF OVER ₹50,000!

AWARDS & RECOGNITION:

OVERALL BEST PAPER
OVERALL RUNNER-UP
BEST PAPER IN EACH TRACK
PARTICIPATION CERTIFICATES FOR ALL

KEY HIGHLIGHTS

No Registration Fee:

Participate and present your research without any financial constraints.

An Inclusive Platform:

Exchange ideas, foster innovation, and create lasting impact.

Networking and Collaboration:

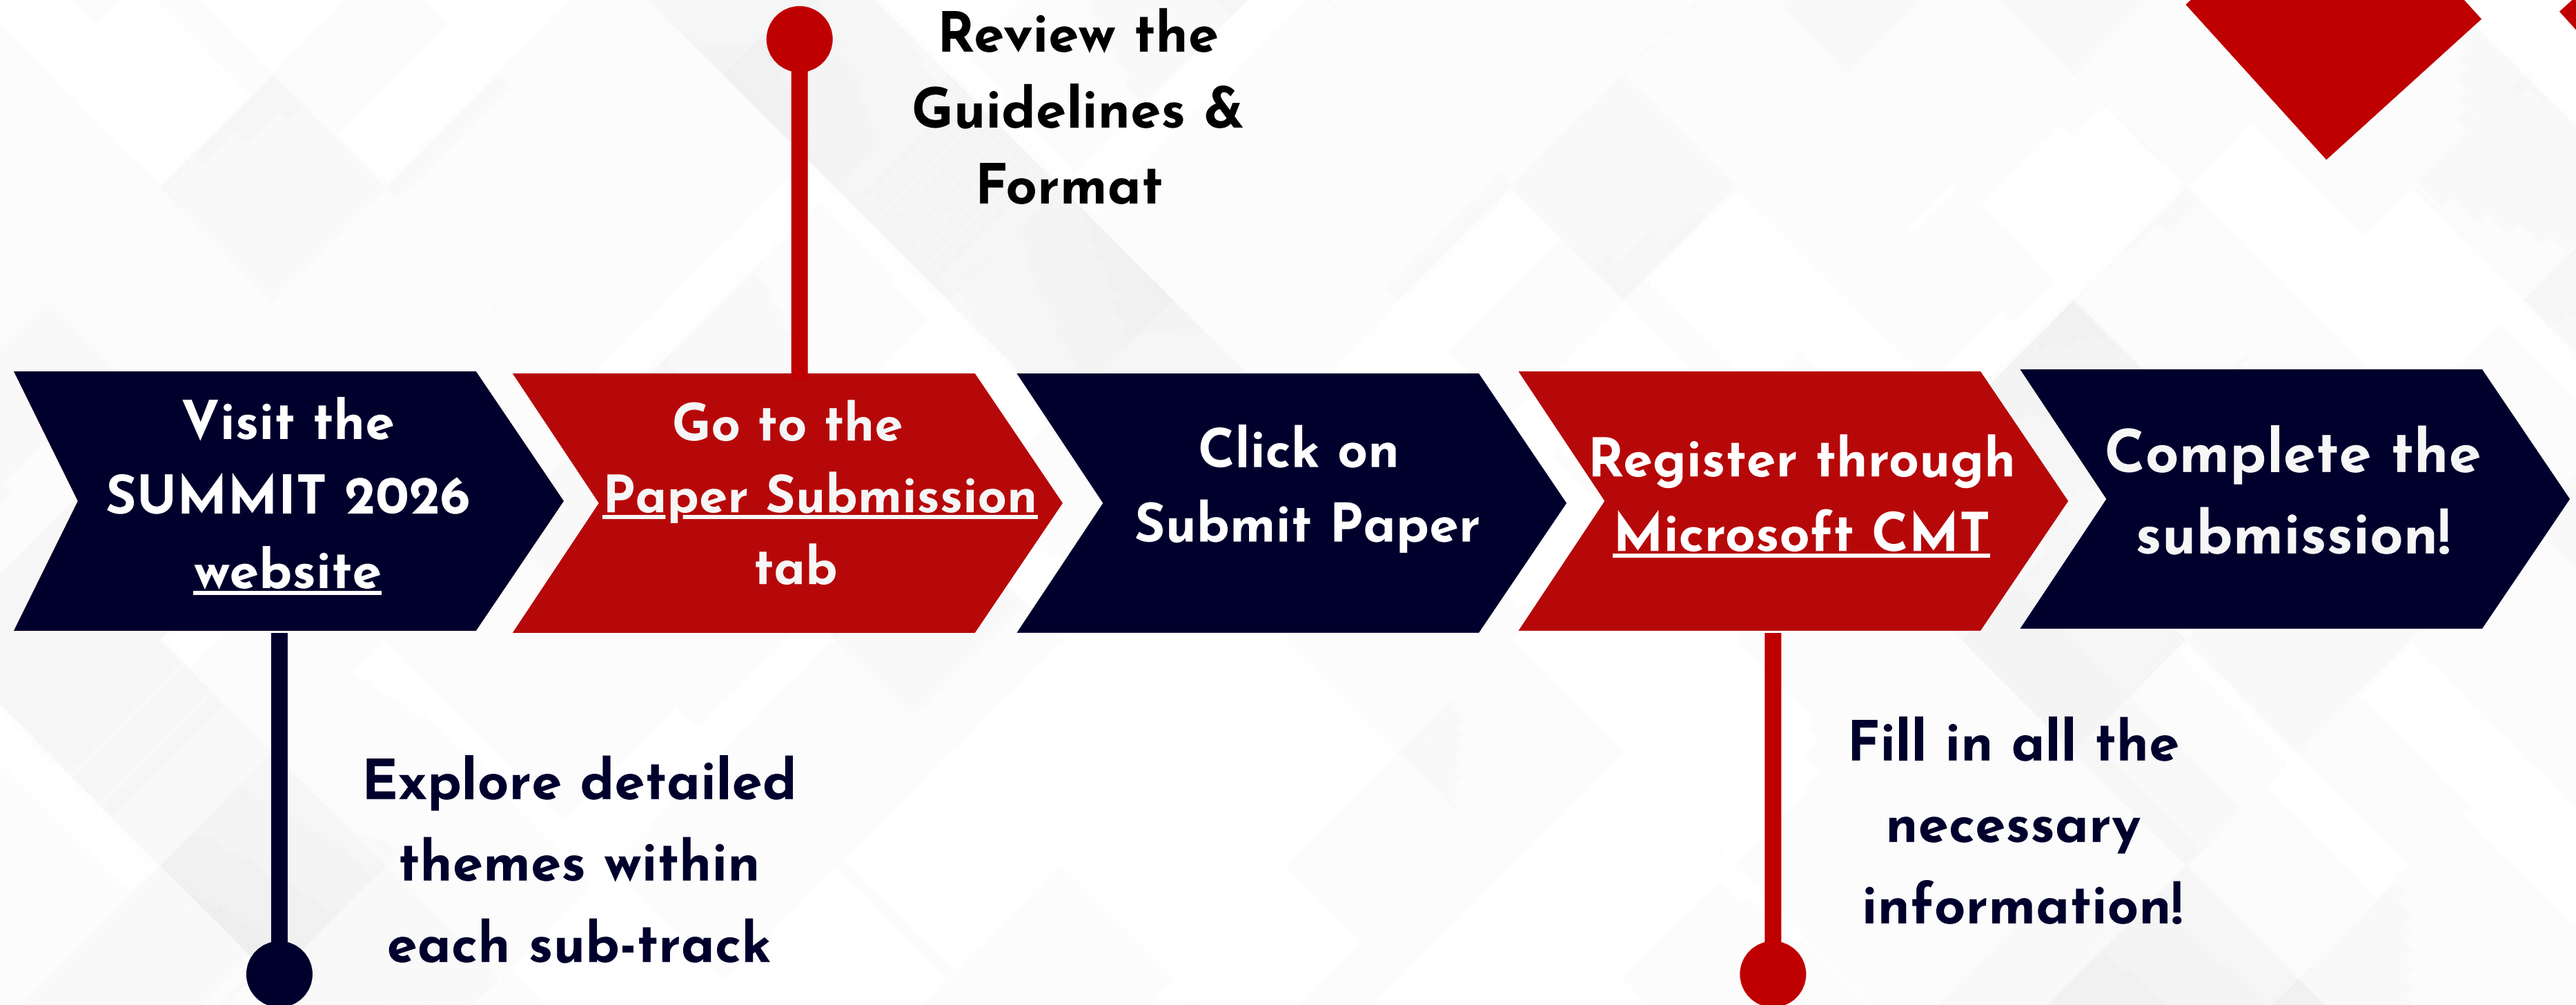

Engage with a diverse audience and build meaningful connections.

Invaluable Exposure:

Showcase your ideas and gain insights from thought leaders across institutions.
