Fee	₹16,520 (Incl. GST)

(A discount applies for members of government services.)

Qualifying for the next level requires attendance of 28 of 32 contact hours and passing the final assignment

COURSE HIGHLIGHTS

Certificate from Shiv Nadar Institution of Eminence.

A rare, university-backed Mandarin course built specifically for technology & workplace contexts - most options teach only generic or business Chinese.

Taught through Comprehensible Input - stories, visuals & interaction, not grammar drills or memorisation.

WHAT YOU WILL LEARN

Survival Chinese through Comprehensible Input - personal info, locations, everyday responses.

Everyday & Workplace Communication - daily routines, simple interactions, basic tech vocabulary.

Tasks, Processes & Problem-Solving - sequencing actions, workflows, basic trends.

Applied Chinese for Technology Contexts - project language, guided technical communication.

WHY THIS COURSE?

- Build comprehension first, then respond with confidence - no rote memorisation.
- From survival Chinese to real workplace conversations, in four progressive stages.
- 8 weeks in: recognise 40-50 Chinese characters and use basic everyday phrases.
