## School of Engineering Department of Computer Science & Engineering PhD Program (Monsoon 2021)

### 1. Objectives

The Ph.D. program is designed to prepare students for highly rewarding careers in academia and research labs. The demand for quality PhDs is increasing at a rapid rate in the country, thereby creating an ever-widening gap between the demand and supply. Depending upon the academic preparation, admitted candidates are exposed to a wide range of core and elective courses with in-depth syllabi. In addition to this, students write a research proposal and start pursuing research that eventually culminates in a Ph.D. thesis. Such an excellent combination of academic excellence in subject matters and top-notch research, equips SNU PhDs in CSE with strong knowledge and research skills necessary for pursuing highly productive careers.

Please visit <https://cse.snu.edu.in/people/faculty> to know more about the faculty members and their specific research interests.

### 2. Areas of Specializations

The research interests of the current faculty members in Computer Science and Engineering department span the following emerging domains:

- **Theoretical Computer Science**
- **Data Science and Engineering**
- **Artificial Intelligence and Machine Learning**
- **Modeling and Simulation**
- **Security and Privacy**
- **Wireless, Mobile Computing and Networking**

The student is required to work in an area aligned with the current research interests of the faculty in the department. For multi-disciplinary research work, approval of the Departmental Research Committee is required.

Relevant GATE score for M.Sc./MCA candidates seeking admission to Full-time Ph.D program is mandatory for assistantship and is optional for M.Tech candidates.

Relevant GATE score should be in the following areas: Computer Science and Information Technology, Engineering Sciences, Mathematics, Statistics, Electronics and Communication Engineering and Electrical Engineering

## Syllabus for Written Test

The Syllabus for the written test will be as follows:

- **Logical Ability Test**
- **Mathematical Sciences** – Linear Algebra, Probability and Statistics, Calculus, Discrete Mathematics, Elements of Optimization, Elements of Combinatorics, Elements of Number Theory
- **Computer Science** – Programming, Data Structures and Algorithms

## 4. Fees Structure, Fee Waivers and Assistantships

Detailed information about the fee structure and the nature of assistantships are available on the website. All full-time Ph.D. students admitted into the program shall receive a doctoral research and teaching assistantship. The assistantship is subject to satisfactory performance in the program evaluated continuously and compliance with all University regulations. **SNU does not provide fellowship/assistantship to part-time students.**
